CONCEPT

## **OCTABAGASSE**

The ultimate stage for your food  
– now crafted from mindful materials

## MATERIALS THAT CELEBRATE LIFE

Like good food, the top-quality eco-conscious materials used for Octabagasse boxes celebrate the magic of nature. Compostable bagasse is great example of upcycling: it is made using natural waste from sugar production. The crystal-clear 100% rPET used for the transparent lids also has an uplifting story to tell: it is produced using recycled plastic bottles.

# CLASSIC SHAPE. NEW ECO-CONSCIOUS PROFILE.

The mindful materials used to make Octabagasse boxes add an extra dimension to a classic design, which offers best-in-class display and handling performance. If you want to impress your customers and your team, look no further.

## EASY TO CARRY

Combining first-class portability and sustainability, Octabagasse boxes feature easy-to-grip edges. The result? They are easier to work with and dine from.

## CRYSTAL-CLEAR rPET LIDS

Made from 100% recycled plastic, the transparent rPET lids contrast elegantly with the bagasse and make your food look delicious.

## NATURAL-LOOK BAGASSE LIDS

Does an opaque lid suit your concept better? Go for the bagasse lids which seamlessly match the bases and create an elegant eco-look.

## SUPER-SECURE CLOSING

Both the rPET and bagasse lids shut securely to protect against spills and waste. The bagasse lids, in particular, incorporate wings and lock shut with a satisfying haptic click - a feature customers and staff are sure to appreciate.

## STAND OUT WITH PERSONALISATION

Today's consumers want individual experiences. You can take advantage of our Customisation service to give your customers exactly that - and, in doing so, build your brand.

Our experienced team can help you do this with speed and efficiency. Specifically, they can emboss the 100% rPET lids and provide custom Stickers and Sleeves.

## SMART STACK SYSTEM

The contours of the lids are designed for effortlessly easy stacking. This not only makes it easier to prepare food; it also makes it easier to simplify storage too.
